DANIEL KALMANSON AWARD

During the 17th ICDS Symposium, to be held in Belo Horizonte, Brazil, during the XXIII Congress of the Brazilian Cardiovascular Imaging Department on May 27-29th, the 5 best abstracts will be selected to be presented during the Daniel Kalmanson award session, and the best abstract will receive the "Daniel Kalmanson award" from ICDS, as this society has done for many years. Daniel Kalmanson was a pioneer in the Echo Doppler field, contributing to the development of technology, the application of technology, and the physiological interpretation of the measurements made by technology. If you can come to the meeting, visit the site www.congressodepeco.com.br to send your abstract until February 22, 2010.
